

Baby Bird by the Wallflowers in C

C
Come back baby bird
F
With your dirty wings in tatters
Am
Come home where you belong
G
Nobody knows you better
C
Now bring back your velvet heart
F
And we'll make you brand new feathers
Am
Sleep through the morning light
G
With your arms around your brother

C **F**
Babybird come back home
C **F**
Babybird you were never really on your own

C
Now outside faces cry
F
With the tears of lonesome orphans
Am
And behind every mask
G
is the face of another
C
Wherever you have been
F
wherever you took cover
Am
No arms that pulled you in
G
could hold you like your mother

C **F**
Babybird come back home
C **F**
Babybird you were never really on your own

C
When all my colors fade
F
And my wings, they've turned to leather
Am
I'll know the reasons why
G
God let me get older
C
When all my days are through
F
And I fly these hills no longer
Am
I'll lay beneath the stars
G
And I'll watch you flying over

C **F**
Babybird come back home
C **F**
Babybird you were never really on your own

C **F**
Babybird, come back home
